

*“SAP Business One means peace of mind.”*

Nico Walters, Global Information and Innovation Manager, CMC Networks

## LONG-LASTING CONNECTIVITY WITH SAP BUSINESS ONE

CMC Networks, Africa and the Middle East’s premier data network provider, started 30 years ago and has worked with G3G and SAP Business One from the very beginning. Together they have achieved greater control and efficiency in local and remote areas.

### OBJECTIVES

- From the very beginning, CMC Networks has been using SAP Business One.
- With a fully integrated system and the flexibility to suit all their business needs, CMC Networks has never needed to change software providers.
- SAP Business One is continuously improving and growing alongside CMC Networks, helping them to stay competitive in a fierce industry.

### WHY SAP AND G3G

- SAP Business One could grow with CMC Networks seamlessly.
- G3G best matched CMC Networks’ business requirements and provided them with personalised support.

### BENEFITS

- In an everchanging competitive environment, SAP Business One makes finding and fixing issues easier so CMC Networks can stay proactive in meeting their customers’ requirements.
- Tailor-made reports provide management with a complete overview of operations.
- Real-time information helps management make more informed and innovative business decisions.
- SAP Business One continually helps CMC Networks identify the most profitable revenue streams and opportunities for growth.
