

*“We wanted to take our business to the next level. SAP Business One enables us to be distinctively better.”*

Nadia Dempsey, Group Finance Head: Operations, Makoya Supply Chain Holdings (Pty) Ltd

## SAP BUSINESS ONE MAKES LIGHT WORK DELIVERING LOGISTICAL EXCELLENCE

Makoya Supply Chain Holdings, a supply chain management service provider of specialized bulk materials, worked with G3G to replace their outdated system with SAP Business One. Since implementation, a high level of quality has been maintained without having to shift costs up or down.

### OBJECTIVES

- Makoya Supply Chain Holdings had several requirements that were no longer being met by their previous software solution.
- A more robust ERP was required that could grow alongside Makoya Supply Chain Holdings.

### WHY SAP AND G3G

- SAP Business One was the best solution for Makoya Supply Chain Holdings.
- G3G provided a great understanding of Makoya Supply Chain Holdings' industry and could implement SAP Business One seamlessly.

### BENEFITS

- Previous manual operations are now fully automated, removing inaccuracies and human error.
- Customisable reports are now quicker and easier to produce, so management can spend more time analysing data than compiling it.
- Real-time data allows management to make important business decisions faster.
- Being able to fully track assets saves valuable time.
- SAP Business One provides external modules to simplify operations and allow space to grow.
