

“SAP Business One is complexity simplified.”

Shane Moetlo, Chief Financial Officer, Mbuyelo Mining Contractors (Pty) Ltd

EXTRACTING MANUAL PROCESSES WITH SAP BUSINESS ONE

South African coal producer Mbuyelo, turned to G3G in search of a flexible and scalable solution for their business. Opting for SAP Business One, Mbuyelo no longer suffers from a lack of integration and functionality but is instead flourishing with support and consolidation.

OBJECTIVES

- Mbuyelo’s previous system was very basic and processes were slow, which hindered Mbuyelo’s growth.
- Prospects of the business had changed.
- Systems were not integrated, and management had difficulty in planning and forecasting.
- Exporting documents was challenging.
- A new scalable business management system was needed that could seamlessly integrate with other systems.

WHY SAP AND G3G

- SAP Business One is a flexible and easy-to-use system, which allows Mbuyelo to plan for growth.
- G3G is very supportive and has the capabilities to custom build specific additions that seamlessly integrate into SAP Business One.

BENEFITS

- Since implementation, Mbuyelo now has all the flexibility they need.
- Integrations with the weighbridge functionality has improved processes.
- Customer service has improved thanks to easier invoicing.
- Real-time data is easily accessible from anywhere at any time.
- SAP Business One’s banking system cuts down on manual processing, which means more time for decision making and innovation.
- Automated processes makes extracting the right information seamless.
